-----------------	---	--

### Skills

The skills developed throughout the course include:

- Recalling detailed information accurately
- Knowledge and understanding of different microeconomic and macroeconomic concepts, theories and models.
- Applying knowledge and understanding of economic concepts, and theories in different economic contexts.
- Analysing and evaluating the impact of economic policy on the consumers, producers and the economy
- Making justified judgements with supported reasoning
- Numeracy skills – calculations in each topic of the course
- Communication and presenting
- Problem solving

### Assessment

Internal formal assessment takes place on five occasions in Year 12 (including the mock exams) and two occasions in Year 13 in line with the school assessment policy. There will also be a series of departmental assessments and home works throughout Year 12 and 13 to support the more formal assessments. For the award of the qualification, this linear A Level from Pearson is examined entirely by examination at the end of Year 13. There are three papers:

Paper 1 – Markets and Business Behaviour (2 Hours)

Paper 2 – National and Global Economy (2 Hours)

Paper 3 – Micro and Macro Economics (2 Hours)

Papers 1 and 2 are made up of multiple choice, short response and extended answer questions linking to case studies.

Paper 3 is made up of synoptic short answer and extended answer questions based on two detailed case studies.

Papers 1 and 2 are have a slightly greater overall weighting

Further details about the course can be found at:
